

# PREPARING AND IMPLEMENTING REMOTE LEARNING

The pillars of successful change  
Prepared by Think Ahead Education Solutions

Because of COVID-19 school closures, schools find themselves forced to increase technology use as they teach and learn. Think Ahead presents a checklist for a school's successful journey to meet these challenges. This process also addresses elements that can continue for successful 21st century learning beyond COVID-19.

Think Ahead will work with your team to support your planning and implementation, plus review the continuity and sustainability of solutions beyond this period.

## THINK AHEAD 7 PILLARS FOR REMOTE LEARNING AND PLANNING BEYOND LOCKDOWN

VISION 	DESIGN 	TEAM 	ENVIRONMENT 	PARENT COMMUNICATION 	STUDENT LEARNING 	EVALUATION 
Overall framework design	Curriculum and pedagogy design	Stakeholder roles	Teacher and student device access	Platform	Platform	Quantitative - data driven
